

REMARKS

This paper is filed in response to the office action mailed on June 5, 2003.

In the office action, the specification is objected and, in response, the paragraph appearing on page 3, lines 15-27 as well as the title has been amended to traverse this objection.

Claims 1 and 2 have also been objected to due to informalities. In response, claims 1 and 2 have been amended to traverse these objections.

With respect to the rejection based upon the prior art, claims 1-7, 12-14 and 15-16 stand rejected under 35 U.S.C. § 103 as being unpatentable over U.S. Patent No. 6,436,763 ("Huang") in view of U.S. Publication No. 2001/0054730 ("Kim"). In response, independent claim 1 has been amended to include the limitations of claim 8, thereby rendering claim 1 allowable as indicated in page 7, paragraph no. 6 of the office action. Claim 9 has been amended to make it dependent from claim 1 instead of now-canceled claim 8.

Because the remaining claims 2-7 and 11-17 all depend from allowable claim 1, applicants respectfully submit that the obviousness rejection has been traversed and that this application is now in a condition for allowance and an early action so indicating is respectfully requested.

The Commissioner is authorized to charge any fee deficiency required by this paper, or credit any overpayment, to Deposit Account No. 13-2855.

Respectfully submitted,

MARSHALL, GERSTEIN & BORUN LLP
